EDITORIAL

Heartiest greetings and best wishes to you and your connections for a healthy, happy, active and fruitful New Year 2023.

The Year 2022 was satisfying for IJAEB with reference to diversifying the content of the journal with the present perspective, receiving higher citations and reaching to diversified stakeholders. As a key partner with AIASA, New Delhi; BHU, ICAR, IJAEB was actively contributed in advances in agriculture and food system towards sustainable development goals with a special emphasis on sustainable transformation in agriculture and food production system, advances in aquaculture for food and nutritional security, innovation in global & regional agricultural education towards youth empowerment, climate change resilient agriculture, post-harvest technology and policy issues.

I am confident that our collective efforts to excel shall lead to newer heights in supporting the cause of science with a special reference to agricultural science in times to come. On the eve of the New Year, let us resolve to work with dedication and commitment to make AAEB a vibrant, integrated and self-reliant association of global repute through publishing quality research for a better future of the people and the planet.

My best wishes and regards,

Sincerely

Amitava Rakshit, PhD
