International Journal of Agriculture, Environment and Biotechnology

VOL. 19, NO. 03, SEPTEMBER 2026

RESEARCH PAPERS

Yield Stability and Adaptability of Elite Sesame (*Sesamum indicum* L.) Breeding Lines Across Environments Using AMMI and GGE Biplot Analysis 105

Anowar Hossain, Maini Bhattacharjee, Tapash Dasgupta, Satyaki Nandan Maity and Yendrembam Surjalata Devi

Assessment of Genetic Variability, Heritability and Correlation among Growth Traits in *Toona ciliata* M.Roem 115

Vipul Sharma, Rama Kant, Ashok Kumar and Shailendra Kumar

Evaluating the Multi-Dimensional Sustainability Trade-offs of Autonomous Agricultural Systems: An AHP-TOPSIS Decision Model for Precision UAV Spraying in India 121

Livert Mudzingenyama and Mahesh Vinayak Hadole

Paddy Residue Burning in Rice–Wheat Systems: Environmental Impacts, Soil Fertility, Crop Productivity, and Food-Security Implications 131

Rizul

REVIEW PAPERS

Marker-Assisted Breeding and Gene Editing for Rice Improvement: Advances and Future Directions 139

Tapash Dasgupta, Payabrata Roy and Satyaki Nandan Maity

Unraveling the Physiological and Molecular Mechanisms of Heightening Crop Resilience under Climatic Variability Coupled with Drought and Heat Stress 153

Miriam Githumbi, Masina Sairam, Sumit Ray, Shaik Rishitha, Luciana Chappa, Victor Ngaiza, Emmanuely Nungula, Harun Gitari and Sagar Maitra

Utility of Modelling Approach in Simulating the Runoff, Soil Loss and Sediment Yield in Shivalik Foothills of India: A Review 171

Nidhi Kamboj, Satish Manda, M.J. Singh and Abrar Yousuf
