## List of Figures

Fig. 1.1: Types of Computer Security	4
Fig. 1.2: Features of Security	8
Fig. 1.3: Security Attack	11
Fig. 1.4: Cryptography Process	13
Fig. 1.5: Cryptography Features	15
Fig. 1.6: Classification of Cryptography	18
Fig. 1.7: Symmetric Cryptography	19
Fig. 1.8: Asymmetric Cryptography	19
Fig. 1.9: Hash Function	20
Fig. 1.10: Egyptian Encryption Symbol	21
Fig. 1.11: Transposition Cipher	22
Fig. 1.12: Wheat Stone	22
Fig. 1.13: Enigma Rotor Machine	23
Fig. 1.14: Geometric Cryptography	24
Fig. 1.15: One Time Pad	26
Fig. 1.16: ECC Addition	38
Fig. 2.1: Types of Cyber Attack	45
Fig. 2.2: Types of Cyber Crime	47
Fig. 2.3: Cyber Terrorism	48
Fig. 2.4: Contribution of Cyber Security	51
Fig. 2.5: Types of Cyber Security	54
Fig. 3.1: CIA Triad	71
Fig. 3.2: Network Security	72

Fig. 3.3: OSI Security Structure	75
Fig. 3.4: Network Security Model	79
Fig. 3.5: Relativity of Securities	83
Fig. 3.6: Types of Penetration	90
Fig. 3.7: Phishing	92
Fig. 3.8: Dictionary Attack	94
Fig. 3.9: Spyware	100
Fig. 3.10: Spyware Removal Process	102
Fig. 3.11: Process of Spyware Removal	103
Fig. 3.12: SQL Injection	105
Fig. 3.13: Types of Keyloggers	109
Fig. 3.14: Process of NAC	113
Fig. 3.15: Implement NAC Solutions	115
Fig. 4.1: Cloud Service Model	118
Fig. 4.2: Cloud Characteristics	121
Fig. 4.3: Cloud Security Challenges	124
Fig. 4.5: Model for Securing Cloud Workloads	129
Fig. 4.6: Security Life Cycle	133
Fig. 4.7: Cloud Environment Security	142
Fig. 5.1: Cyber Intrusion	151
Fig. 5.2: Intrusion Detection System	156
Fig. 5.3: NIDS Model	158
Fig. 5.4: HIDS Model	159
Fig. 5.5: Firewall with IPS/IDS	162
Fig. 5.6: IDS Challenges	163
Fig. 5.7: Intrusion Detection Mechanism	165
Fig. 5.8: Intrusion Prevention System	176

Fig. 5.9: Intrusion Prevention System Classifications	179
Fig. 6.1: Types of Hacking	186
Fig. 6.2: Types of Hacker	192
Fig. 6.3: Types of Scanning	199
Fig. 6.4: Classification of Enumeration	202
Fig. 6.5: Sniffing	212
Fig. 6.6: Google URL Builder	214
Fig. 6.7: E-mail Tracking	216
Fig. 6.8: Disabling Tracking Pixel	218
Fig. 6.9: Enabling Mail Privacy	219
Fig. 7.1: Process of Digital Forensics	223
Fig. 7.2: Digital Evidence Report	226
Fig. 7.3: Digital Forensics	228
Fig. 7.4: Tools of Forensic	232
Fig. 7.5: Data Protection	244
Fig. 7.6: Types of Data Profiling	249
Fig. 7.7: Types of Access Control Model	252

## **List of Tables**

Table 1.1: Crypto Algorithms and Systems Uses	39
Table 2.1: Active and Passive Attacks Comparison	58
Table 2.2: Types of Attack	59
Table 3.1: Diversity of Cyber, Information, and Network Security	84
Table 4.1: Cloud and System Security Comparison	122
Table 5.1: Comparison of Firewall, IDS and IPS	181
Table 6.1: Foot Printing and Reconnaissance Comparison	197
